## Towards a Rebirth of Humanity: The Big Diagram

**Saturday, November 6, 2021 from 3:00 – 5:00 pm PDT**

Concord Hall, 1407 Chapala Street, Santa Barbara, California

Presenters: Jonathan Colbert and Robert Moore

Panel: Elton Hall, Carolyn Dorrance, Jenny Bisheff, and John Powers

Is moral chaos and world-weariness all there is? Or, is humanity as a whole undergoing the pangs of a spiritual rebirth? Are there political forces holding back or assisting such a rebirth? What might be the effect of vision and virtue, self-actualization and self-transcendence, in midwifing a rebirth of *Civitas Humana*? Plato asserted that: "If you take a person to a diagram, then you can show most clearly that learning is recollection." Using a Parapolitical diagram – and a panel of speakers – this seminar will attempt to uncover the dynamics and forces at play as humanity remakes itself in the image of hope, healing, and harmony. Participants will then be asked for their "recollections" (insights)!

Panel topics include: Politics of Vision and Virtue, Politics of Perfectability; Politics of Stability; Politics of Welfare; Politics of Self-Preservation; Politics of Reason; and Politics of Power.
